

LMXX-XXX

Low profile, open frame, common mode filter

- Unique “low profile” toroidal construction
- Inductance balanced within 1% (1-4 & 2-3)
- Dielectric strength, 1500Vrms between windings
- Creepage / clearance distance 3mm minimum
- Temperature class, 130 °C
- Inductance test level, 100kHz @ 10mV
- “I” maximum rating reference only for 40 °C temperature rise
